

Shared Savings Overview

BHQIP overview

- Designed for behavioral health (BH) providers
 - Community mental health centers (CMHCs)
 - Community service boards (CSBs)
 - Other high-volume BH providers
- Uses visit-based member attribution methodology
- Consists of quality performance indicators (efficiency and quality of care)
- Rewards both absolute performance targets and year-over-year improvement
- Includes a year-end bonus incentive driven by performance indicators
- Provider group must have at least 100 attributed members.
