On February 13, 2017, the Indiana Health Coverage Programs (IHCP) will replace its current information system, IndianaAIM, with the new CoreMMIS. Along with CoreMMIS, a new provider interface called the Provider Healthcare Portal (Portal) will replace Web interChange. IHCP Provider Bulletins have been published throughout the past months to ensure that all participating IHCP providers have the information needed for a smooth transition.

This master summary encompasses important refresher information and includes links to key published bulletins, training courses, and resources. These resources and others can be found at indianamedicaid.com. We encourage participating IHCP providers to keep this essential document handy as a reference tool during CoreMMIS implementation and stabilization. Note that some bulletins may include obsolete dates due to delays in implementation; however, other content in the publication remains relevant.

Transition Information

To ensure a successful transition to the new system, the IHCP will temporarily suspend business transactions in the current system in the days and hours before implementation. These suspended business transactions are outlined in the following bulletin:

**Related Bulletin**

- **BT201710**: IHCP sets new CoreMMIS implementation date of February 13, 2017
  - Published January 30, 2017
  - Notice to providers about the new implementation date, transition dates, and tasks providers can perform to prepare for CoreMMIS implementation.
Provider Healthcare Portal Registration and Training

The Provider Healthcare Portal (Portal) is a new Internet-based solution that offers enhanced reliability, speed, ease of use, and security to providers and other partners doing business with the IHCP. Through a registered Provider account on the Portal, users can conduct the following types of transactions:

- Verify member eligibility and view member information
- Submit prior authorization (PA) requests and view PA status
- Submit fee-for-service (FFS) claims and view claim status and payment history
- Submit provider enrollment applications and enrollment-related updates
- Submit secure correspondence

Providers will need to create a Provider account on the new Portal for each service location. Providers are strongly encouraged to register on the Portal before February 13, 2017, to reduce disruptions. Follow these steps to register on the Portal:

1. Select a provider representative for the Portal account. The provider representative has full access to all information related to the service location in the Portal and manages assignments for delegates who work in the Portal on the provider’s behalf (likely current Web interChange users).

2. Register the Provider account on the Portal. The provider representative sets up the Provider account, including identifying delegates and establishing delegate roles. Each service location has only one Provider account in the Portal.

3. Register Delegate accounts. The designated delegates set up their accounts at the direction of the provider representative.

FFS Billing Guidance

The new system is designed to more accurately and efficiently adjudicate FFS claims in alignment with IHCP policies and procedures and national coding guidelines to prevent the improper payment of claims. Claims not following billing guidelines, or claims for services inconsistent with IHCP policy, will not process for reimbursement in CoreMMIS as they may have in IndianaAIM.

  - NCCI Practitioner Medically Unlikely Edit (MUE) deactivated when billing CPT codes 96150, 96151, 96152, 96154, and 96155 with Applied Behavior Analysis (ABA) therapy modifiers

**General System Enhancements**

The implementation of CoreMMIS will enhance many of the daily interactions between the IHCP and providers. The Portal interface will offer familiar features currently available in Web interChange as well as new functions:

- Verifying member eligibility
- Prior authorization enhancements
- Presumptive eligibility
- Secure correspondence through the Portal
- Fee Schedule changes

**Related Bulletins**

  - Published February 10, 2017
  - Information on the enhanced functions and information included in the Fee Schedule with CoreMMIS implementation
Trading Partners

Trading partners are entities that exchange electronic data, such as batch claims or eligibility requests and responses, with the IHCP. Providers should make sure trading partner billing processes and systems are ready for CoreMMIS implementation by ensuring that contracted software vendors, billing services, and clearinghouses are aware of the upcoming changes that will impact them.

Other Key Resources

Providers will have a single Customer Assistance telephone number starting on February 13, 2017: 1-800-457-4584. The IHCP Call Center will have new Saturday hours available from 8 a.m. to 1 p.m. Callers will also have the option to leave voicemail messages at any time and can expect a return call within one business day.

To support CoreMMIS transition and stabilization, weekday Call Center hours will be extended on a temporary basis to 8 a.m. – 8 p.m. Eastern Standard Time. Providers may email questions about the transition to incoremmis2015@hpe.com.

Current avenues of communication continue to be available, including the following:

- Electronic Data Interchange (EDI): INXIXTradingPartner@hpe.com
- Electronic Solutions Help Desk: INXIXElectronicSolution@hpe.com
- Written Correspondence: INXIXWrittenCorr@hpe.com
- Provider Relations Field Representatives: HPE Provider Relations Field Representatives
