## Thank you to Department of Mental Health and Addictions as 15 CMHC's receive grant funding

INDIANAPOLIS - The Indiana Family and Social Services Administration's Division of Mental Addiction -is providing new funding to improve mental health and recovery services for Hoosiers across the state. This includes funding from the federal American Rescue Plan Act and the National Opioid Settlement, and totals more than \$76 million.

15 community mental health centers across the state will be receiving \$57 million in Crisis Receiving and Stabilization Services grants. These grants will support the advancement of an integrated crisis response system that provides Hoosiers experiencing a mental health and/or substance use crisis someone to contact, someone to respond, and a safe place for help. Crisis receiving and stabilization services function as part of the safe place for help pillar in Indiana's Crisis Response Network and are an essential part in ensuring that all Hoosiers have a safe place to accept support and stabilize, regardless of clinical condition, in accordance with SAMHSA Best Practices.

"The Indiana Council and our members are grateful to the Department of Mental Health and Addiction (DMHA) for supporting our vital community mental health system as a necessary part of the crisis system. Through this support 15 Community Mental Health Centers will be able to develop, enhance and sustain crisis receiving and stabilization services. The Council looks forward to supporting our members and DMHA in the continued development of this crisis infrastructure," Zoe Frantz, President and CEO of the Indiana Council.
